## ARCTIC

### Global Challenges faced by the Environment and Arctic societies

- » A new geopolitical perspective
- » Recent developments in the domains of climate, the environment and human activities in the Arctic have opened up new economic, social and geopolitical perspectives.

### Objectives

---

- to bring OVSQ researchers and students together to explore topics relating to the Arctic
- to promote research on the Arctic at OVSQ
- to get involved in SHS multidisciplinary projects - SciEnv
- to involve the indigenous peoples of the Arctic regions in research and teaching

## Leaders

---

**Alexandra Lavrillier**, Anthropology and Siberian studies

## Teams

---

3 laboratories and a research federation: LSCE, LATMOS, CEARC, and IPSL

4 linked institutions: CNRS, CEA, OVSQ / UVSQ and IPEV

44 researchers (10 doctoral students)

## Projects

### Ongoing

---

5 ANR, 1 LIA, 1 EquipEx, 6 IPEV, 8 European projects (FP7), 1 Mega-grant (Russia), 1 Franco-Canadian project

- » Projects in Siberia
- » Projects in Greenland
- » Projects in Canada and Spitzberg

ANR: L'Agence Nationale de la Recherche (National Research Agency)

LIA: Laboratoire International Associé (International Linked Laboratory)

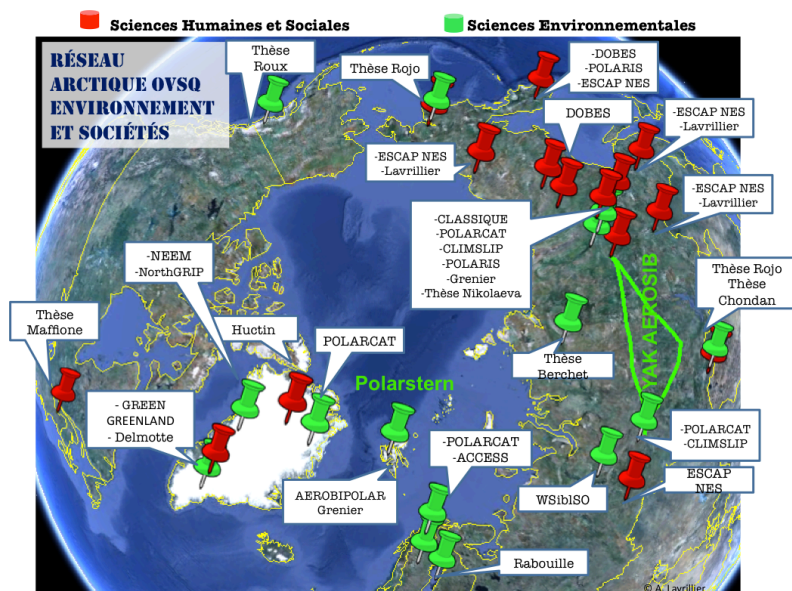

EquipEx: Equipment Excellence

IPEV: Institut Polaire Français (French Polar Institute)

FP7: EU Seventh Framework Programme for research and development

## Current Programme

---

## Future Projects

### Future Projects

- » Resumption of the multidisciplinary project ESCAP NES (7PCRD) ESCAP NES (7PCRD)
- » Adaptation strategies of Arctic societies to climate change
- » Implementation of the POLARIS project (IRSES, FP7) - "Promotion of the cultural and natural heritage of the Arctic and Subantarctic [1] regions and development of sustainable tourism"
- » Implementation of the Franco-Canadian project (UVSQ - UQAM)
- » History of the North and of the Arctic
- » Participation in the CNRS project to create the Franco-Siberian Centre for Research and Education in Tomsk
- » Organisation of the "Gateway to ARCTIC" seminar with AWI and IPEV from October 17 to 19, 2012[2]
- » Response to the call for projects by ANR on Societies and Environmental Change
- » Response to the call from the Belmont forum (ARTISTIC project)
- » Participation in the Franco-Russian research project around geomagnetism with GC RAS
